

Protect the iPad 10 and expand your connectivity options with the Shield Extreme-X2 case with 3.5mm adapter with a tamper-resistant design that prevents users from prying open the case. The included adapter integrates seamlessly to provide a 3.5mm port for headphones/headsets along with USB-C connectivity with charging. The updated design features a clear back for asset tag viewing, along with a rugged TPU bumper that provides outstanding protection from drops and impact damage while also resisting grease, abrasion, and tears. The removable screen protector enables easy replacement as needed. The FlexStand kickstand is virtually break-proof and provides unlimited, stable positioning thanks to the easy-sliding friction hinge. The custom-fit design delivers easy access to all ports and buttons, ensuring seamless device functionality.

Shield Extreme-X2 w/ 3.5 mm Adapter for iPad 10

Tamper-resistant protection with double the connectivity

Shield Extreme-X2 w/ 3.5 mm Adapter for iPad 10

Tamper-resistant protection with double the connectivity
