

The Extreme KeyCase-T with Trackpad is an all-in-one protective case solution that lets iPad users choose typing, touchscreen or trackpad to best meet their needs. The rugged TPU bumper surrounds the iPad and keyboard to provide shock-absorbing protection against drops, scratches, spills, and wear & tear. The integrated design keeps keyboard and stylus always available, with nothing extra to keep track of or lose. Smart features help reduce classroom hassles, with tamper-proof keys and a water-resistant keyboard with integrated channels to drain liquid quickly in the event of spills. The custom fit ensures full functionality and easy access to camera, ports, and connections, while the built-in kickstand securely locks in place for stable use. All materials are smooth and easy to keep clean and sanitized. Meets CAASPP/ELPAC requirements for online test administration.

Extreme KeyCase-T

Rugged iPad Protection Plus Keyboard w/ Trackpad

Extreme KeyCase-T

Rugged iPad Protection Plus Keyboard w/ Trackpad
